

Please, don't take away my AIR 1 Radio! My children have benefitted to listening to Christian rock music. It helps keep them out of trouble and focused on God. It would have a huge negative impact on this rural area if we were to lose it. I sincerely believe that AIR 1 has brought Christianity to alot of kids in our area that would not otherwise be drawn to it. It is important for us to keep positive motivation to our children, but the adults enjoy it also. I always listen when I am in the car, and would be absolutely devastated to lose this important station! Please don't replace it with an LPFM station!!
